Identify the objects drawn using one point and two point perspective techniques.

Source: CAAD - DRL

A. One point perspective- 1,3,5,7,9
Two point perspective- 2,4,6,8

C. One point perspective- 4,5,6,7,8
Two point perspective- 1,2,3,9

B. One point perspective- 1,3,6,8,9
Two point perspective- 2,4,5,7

D. One point perspective- 1,3,5,6, 8
Two point perspective- 2,4,7,9

Answer key:

**D. One point perspective- 1,3,5,6, 8
Two point perspective- 2,4,7,9**

Theory:

One point perspective: One point perspective (frontal or central perspective) has only one vanishing point on the horizon line located somewhere within the picture plane and all the orthogonal converge towards it.

Two Point Perspective: Two point perspective (angular perspective) has two vanishing points on the horizon line, which don't necessarily need to be within the picture plane. If the eyelevel is below the horizon line, the viewer can see the base of the object/building.

Suggested Reading: Basics of Two point Perspective

In 2019, a person spent half the time working, a third in sleeping and one-eighth in cooking. He spent the rest of the time exercising. How many total hours did he spend exercising?

A. 730 Hours

B. 182 Hours

C. 365 Hours

D. 1095 Hours

Answer key:

C. 365 Hours

Theory:

$$\begin{aligned} \text{Total no. of hours in the year 2019} &= 365 \times 24 \\ &= 8760 \end{aligned}$$

$$\begin{aligned} \text{Hours spent working} &= 8760 / 2 \\ &= 4380 \end{aligned}$$

$$\begin{aligned} \text{Hours spent sleeping} &= 8760 / 3 \\ &= 2920 \end{aligned}$$

$$\begin{aligned} \text{Hours spent in cooking} &= 8760 / 8 \\ &= 1095 \end{aligned}$$

$$\begin{aligned} \text{Hours spent in exercising} &= 8760 - (4380 + 2920 + 1095) \\ &= 8760 - 8395 \\ &= 365 \text{ hours} \end{aligned}$$

The Parthenon, a symbol of democracy, sits atop which landmark in Athens?

Source: [The Parthenon \(Illustration\)](#) - World History Encyclopedia

A. Agora

C. Acropolis

B. Delphi

D. Olympia

Answer key:

Theory:

•*Explanation: Acropolis: This rocky hill overlooking Athens served as the city's religious and political center. The Parthenon, dedicated to Athena, goddess of wisdom and protector of Athens, was the most significant temple built on the Acropolis. Its central location and symbolic importance solidified its association with Athenian democracy.*

C) Acropolis

How does empathy play a role in user research for architectural projects?

- A. By ignoring user feedback and preferences
- B. By fostering a deeper understanding of user perspectives and experiences
- C. By prioritizing architectural aesthetics over user needs
- D. By limiting design solutions to predetermined criteria

Answer key:

B. By fostering a deeper understanding of user perspectives and experiences

Theory:

Empathy in user research for architectural projects involves putting oneself in the shoes of the users to understand their perspectives, emotions, and behaviors, which helps in designing spaces that meet their needs effectively.

Choose the sentence in which the underlined phrasal verb has been used correctly.

- a. The servant polished off the shoes of all inmates
- b. My brother polished off all the cake that was in the box.
- c. The speaker polished off his speech beautifully.
- d. All the students polished off their textbooks completely.

A. a

C. c

B. b

D. d

Answer key:

B. b – My brother polished off all the cake that was in the box.

Theory:

*The Phrasal Verb “polish off” commonly means to finish or consume something completely, especially food
In Option 2, “polished off” is used to describe the act of finishing eating the cake, which aligns with the common usage of the phrase. The other options do not make any sense in this context.*
